

Problem 8.1

(pp. 11) Go over the section on inverted page table mechanism, starting in pp. 353

Read through the rest of this subsection, particularly, check out the accompanying flow chart (Fig. 8.8), the example (Fig. 8.9), and the associated demonstration contained in Fig. 8.10

Paging system does have its weakness with internal segmentation being one of them. Study the subsection on a combined approach of mixing paging and segmentation, starting at pp. 362, and discuss what this approach is, why it is done, and how this approach could be implemented.

Problem 8.4
